Our neighbor, the Greenville Daily News, is a good paper, and no physician will ever have to recommend nervine for any ailment on the part of our contem. Not to comment upon the flag it carries at the top of its front page, "The Fastest Growing pause a moment to call attention to the most remarkable display of nerve, good old nerve.

The Daily News in its issue of Wedneiday mentions among other officers and army and navy from that burg "and community," Capt. McCally, Haddon Geer, Jeter Horton and others who are distinctly and distinctively Anderson county men.

Knowing our Greenville neighbor to be modest, we presume that this adoption of some of our favorite sons and we will offer a few sugegstions. Capt. Newton McCully, grandant of one of the founders of Anderson, will never see the day when he will not proudly say "Anderson is My Town." He learned the navy game in this city when but a lad, constructing and floating a huge ship on the pond on thespring branch He and Victor Blue were classmates, and Capt. McCully distinguished himself for his brilliant reports of the naval fights in the Russo-Japanese controversy, in which inbrogito he was under lire many Umes, and the progress it the United States have as it fighting machine awas much to the brains and the stout heart of this gallant man. Don't take him from us, Greenville. He built the battleship California, and although he had the distinction to command the Mayflower, the personal friend of Presidents Taft and Wilson, yet it was the proudest day of his life when Mr. McCally received his captain's commission with assignment to command the California, which is now sed in blockading the western port of Acapulco, directly opposite the Mexican isthinus from Vera Cruz.

HERE IS HUERTA'S PHOTOGRAPH.

William Bayard Hale draws this appalling pen picture of the dictator of Mexico:

The chief actor, Huerta, an ape-like Indian, aged, one-eyed, subsisting on brandy, when the moment of his triumph was fully come, rose from breakfasting with the President's brother, beckoned a file of soldiers, arrested him, had him carried away to be shot to death and his body thrown into a hole; went to the palace, embraced the President whose chief commander he had become through portestations of faithfulness to death, and signalled his guards to arrest him. promises of safe-conduct out of the country, the treacherous general secured the signatures of President Madero and Vice President Pino Sparez to deeds of resignation; hastily gathered less than a quorum of Congressmen in a chamber tilled with soldiers and commanded by artillery; had himself acknowledged as President; carried Madero and Pino Suarez out into the night and had them shot to death behind the

Perhaps this is enough to suggest that there could be no question or recognizing Huerta as the head of a lawful government—once it has een resolved to scrutinize revolutions. But indeed it would swell have been impossible for tragic romance to have imagined a character to be through lack of information, so hideously villainous as Victoriano Huerta, or a career so completejustifying the refusal to recognize him.

Other powers made no scruple of giving the assassin and usurper immediate recognition. Very well; the United States is not a follower of other powers. It is, it has been from the beginning of its history, the moral leader of the world. * * * * 1t is the more fact that great powers have no consciences—but the United States has a conscience. We are a simple people, unable to rid oursives of a prejudice against murder. * * * This is, hypocrisy, sentimentalism, Quixoticism, offensive moral superiority, so the British journals say. No, it is not sentimentalism; it is a plain standy morality, to which, unfortunately, the foregn politics of too many other nations are strangers

And it is a very practical morality.

TO CUT OFF WATER FROM SCHOOLS ACCOUNT ACTION OF TRUSTEES

Management of Southern Public Utilities Company Insists That It Must Have a Clear Title to Its Rights In This City

The Southern Public Utilities com-pany has given notice that unless the made that our franchise is null and pany has given notice that unless the school trustees and the city come to some understanding about the water supplied to the school buildings in the school districts, the water will be cut off on the last day of the month.

This notice was served several days ago by H. A. Orr, resident manager, who presented a letter to the board from a. V. Taylor, president manager, who presented a letter to the board company. The board was that this be settled and settled at once, for certainly they are no parties that the consensus of opinion of the members of the board was that the schools should be furnished water corporation must be above suspicion as to its issuing and I, therefore, find

out of the fact that the school dis-trict embraces a lot of territory out-side of the city limits. The water tax is not a heavy item, but the comhydrants das been cut several hun-dred dollars a year, and the underand by public institutions.

The letter of Mr. Taylor stating

accessity for the titles of the pany to be absolutely free from suspicion in order to protect their d issue is as follows:
